Custom Accessibility & Inclusion Solutions Built for the Education Sector

Laws like the Americans with Disabilities Act (ADA) are designed to drive institutions to offer all students inclusive experiences. Automatic Sync Technologies (AST) is making it easier than ever for educational institutions to provide learning and experiences that are both accessible and engaging.

Accessibility and Inclusivity Challenges for Institutions:

Meeting the accommodation needs of diverse student bodies

Executing online and hybrid learning effectively

Developing accessible events and programs

Making live and recorded video content fully accessible to the public

The AST Solution

With AST's captioning and transcription tools, universities and colleges can make their courses, public-facing events, videos and audio recordings accessible. Useful features include:

- Captions and transcripts for live and recorded classes, video & audio content
- Audio description for visual video content to assist those who are blind or low vision
- Integrations into web conferencing and LMS platforms for a user-friendly experience
- Access to professional captioners to meet the ADA's accuracy guidelines
- Glossary functionality to upload complex course terms, speaker names and more
- Interactive transcripts which serve as notes and studying materials
- Translation features to accommodate non-native students or international audiences

Our efficient process means you can quickly and easily address accessibility needs at scale, while taking a more proactive approach to offering inclusivity at every level of the institution.

Accessibility Made Easy

AST offers a straightforward, user-friendly experience to make accessibility accommodations frictionless. You can request services for multiple courses or events happening simultaneously. Customers can also rely on built-in integrations with platforms like Zoom and YouTube to ensure a smooth, efficient process for live events.

Your institution can also benefit from having video and audio content translated in English, French, Spanish and additional languages to reach international students and viewers effectively.

Summing it Up

AST's education team is with you every step of the way to provide expertise tailored to meet your accessibility needs.

Essential partner

Committed to helping you create new opportunities to advance inclusion at your institution

Accelerating progress

Helping you engage and include all audiences with diverse needs by making your content accessible and searchable

Specialized teams and technology

Deep understanding of industry needs with expert teams and purpose-built technology for education

Compliance covered

Helping you meet ADA guidelines and regulatory standards specific to education and public-facing events

Don't Take Our Word For It
